

Group Level

e.g., community characteristics

Community Level

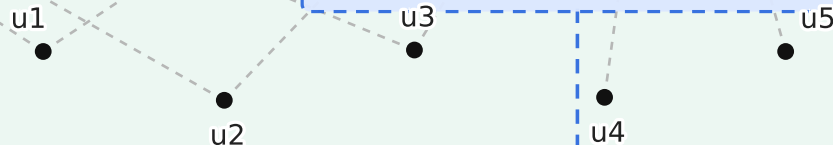

e.g., fitness culture identity

Aggrégation

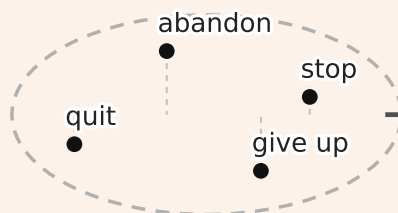

Aggrégation

"I will persist and finish my 5km run today."

Semantic Projection

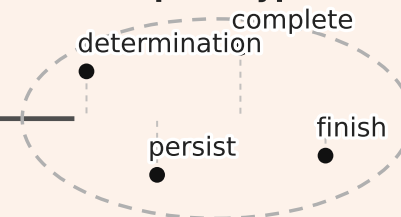

NEG prototype

SemanticAxis

+0.417

POS prototype

Semantic Space

Word embeddings (e.g., GloVe)

User Level

e.g., individual psychological constructs

Example: Goal Commitment

higher values indicate stronger commitment

SemanticAxis = **Vector(POS)** – **Vector(NEG)**

ConstructScore = **Projection(UserTextVector, SemanticAxis)**
